

Sonofresco 1LB Small Batch Roaster

Sonofresco's One Pound Roaster is easy to use, and its compact tabletop design brings the art of coffee roasting to retailers and home-based businesses worldwide. Coffee beans roasted in a Sonofresco roaster match the quality of top commercial drum roasters—at a fraction of the cost. With Sonofresco, you can quickly produce the freshest coffee, and both you and your customers will taste the difference.

FEATURES AND CAPABILITIES:

- Enjoy a quick, high-quality small-batch roast in just 18 minutes—cooling included.
- Track each roast in real time with ADR software and Bluetooth connectivity.
- Keep maintenance simple thanks to the blower access plate.
- Select from multiple venting options to suit your setup.
- Draw customers in with a visible roasting process that adds excitement to your operation.
- Cut costs and boost freshness by roasting exactly what you need, when you need it.

BUILD YOUR OWN ROAST PROFILES

Advanced Definition Roasting (ADR) technology makes adjusting your roast profiles simple and allows for real-time roast cycle tracking. With PC and Mac software support, you can create and save unlimited custom roast profiles to match your unique roasting needs.
