

Sonofresco 2LB Profile Roaster

Sonofresco's Two Pound Roaster offers an easy, efficient roasting experience in a compact tabletop design—perfect for retailers and home-based coffee businesses worldwide. Despite its small footprint, it delivers results comparable to top commercial drum roasters at a fraction of the cost, giving you complete control over freshness and flavor. By roasting in-house with Sonofresco, you can customize each batch to delight customers and elevate your coffee offerings.

FEATURES AND CAPABILITIES:

- Enjoy high-quality small-batch roasts completed in just 18 minutes—cooling included.
- Track each roast in real time using ADR software and Bluetooth connectivity.
- Simplify upkeep with the convenient blower access plate for easy cleaning.
- Take advantage of multiple venting options to suit your space.
- Showcase a dynamic, visible roasting process that captivates customers.
- Cut costs and boost freshness by roasting only what you need, exactly when you need it.

BUILD YOUR OWN ROAST PROFILES

Advanced Definition Roasting (ADR) technology makes adjusting your roast profiles simple and allows for real-time roast cycle tracking. With PC and Mac software support, you can create and save unlimited custom roast profiles to match your unique roasting needs.
